Farmington Will Be Launching New Website on April 11

Farmington, Minn., April 8, 2024 – Farmington will be planning to launch their new website Thursday, April 11.

Farmington has partnered with CivicPlus, a provider of integrated technology solutions exclusively for local governments, to launch a new, mobile-responsive, highly functional civic website. CivicPlus' content management system will allow Farmington to accomplish goals such as greater transparency of documents and data for residents and increased resident engagement by offering more dynamic content and more timely news through its set of robust features, well-designed layout, and functionality. The site will incorporate their brand colors and design elements to make it pleasing to the eye.

“We are very excited to get the new site up and running,” said Peter Gilbertson IT Director. “It will make it easier for residents to find what they need!”

A new NotifyMe section will allow residents to sign-up for email and SMS alerts on topics that they choose. They can register with their own login on the new site.
